

Cemetery Trustees

July 26, 2008 Meeting minutes

Present: Trustees Peggy Gendreau & Martha Taylor
Visitor: Artie Gendreau

Trustee Barbara DelloRusso sent her apologies.

At 9:30am the Trustees met at the Depot Hill Cemetery to view the broken gate. It was voted to hire Mike Silvernail to repair the fence for \$448.00. He will rebuild the fence with pressure treated wood and use the original hardware. He will dig a trench under the gate and fill with crushed stone. This is necessary because sand from the road has filled in the area so the gate will no longer fit on the pins on the granite posts.

Martha will talk to the Town to see if they can stop the sand from running down into the gate area. She will also ask them to dig out the area so that the gate may be opened for mowing purposes.

We then proceeded to Plummer Hill Cemetery to mark any available sites that may be sold. We voted to allow plots to be sold on the south edge up to the stone wall.

The meeting was adjourned at 10:30am.
