HEALTH OFFICER'S REPORT

During the past year we had twelve cases of Scarlet Fever. As yet we have been unable to trace the origin. Most cases have been of a very light form. Yet must be treated as the more severe type in regard to isolation.

Mumps also have been very prevalent.

I have sent numerous samples of water to Concord for analysis. Reports very satisfactory.

Have also sent samples of milk and cream. The reports were good also.

I inspected one Maternity Home. One Foster Home also toilets in all Rest Rooms and Schools.

I have investigated all complaints and arrived at satisfactory solution of same.

Respectfully Submitted,
WILLIAM H. CARR,
Health Officer.

Report of the President:

The work of the Association has been carried on as in former years. If there is not the usual report published in the town report, it is for the reason that Miss Ruth Nichols, who has served so faithfully for several years, was called into the army service; and not but what the active service has been carried on. The Association feels that it is fortunate that we were able to secure the services of Mrs. May Maillette who is very efficient and is serving as a full time Public Health Nurse.

Respectfully submitted,

President.

Mrs. Flora D. Cogswell, 6 books.

Mrs. Rena Farrar, 1 book.

Miss Helen F. Sawyer, 1 book.

A large painting from Mrs. Flora Cate's estate. This picture has not been hung yet as we have some re-arranging to do to make room for it.

We are pleased to announce that the beautiful painting of Mrs. H. H. A. Beach, which was presented by her to the Henniker Woman's Club has been placed on the walls of our reading room.

We have collected and sent two large boxes of books for the Victory Book Campaign, and we have more to send as there has been a very generous response to the appeal for books for boys in the service.

We are sorry to omit the children's story hour this year but the prevalence of scarlet fever made it advisable to do so; for this reason the Library has been closed part of the time and the circulation has dropped off accordingly.

On January 14 it was decided to close the library at 7 o'clock instead of 8 o'clock to conserve on light and heat.

Thanking all for gifts and other courtesies, and assuring every one a cordial welcome we close this brief report.

FANNIE W. BENNETT,
Librarian.

Assistant Librarian.

The total number of pupils registered was 278 of whom four were high school tuition pupils.

From the foregoing tabulation, it will be noted that no school except Quaker Street had the required 360 half-sessions. The percent of attendance is lower. Other items are about the same as for the previous year. Parents of pupils in school might greatly increase our percent of attendance by seeing that their children are regularly in school. The only legal excuse for absence from school is the illness of a pupil, yet many other excuses are presented in notes sent by parents. There is rarely any real need for a pupil to remain out of school for work outside the family, or to go shopping with parents. In many cases, we suspect that the real reason for a pupil's absence is the lack of interest of his parents in his progress. They do not realize, or it is a matter of little moment to them, that every day lost by the pupil means a loss of instruction for that day. Lessons are lost which cannot be adequately made up. As a consequence the pupil gets behind and loses interest. He wishes to stay out oftener. School becomes a matter of little importance to him.

During the winter months, a ten-week course in Automobile and Tractor Repairing sponsored by the Federal Government for out-of-school youth, 17 through 24 years of age was given at the high school. About twelve young men completed the course. Necessary tools were furnished by the Federal Government through the State Board of Education. The cost of heat, light, power, janitor service and teacher's salary were paid by the same agency. Mr. Ray E. Bowden was the instructor.

The first prize for work of students in Mechanic

Arts Senior High Schools, also the Sweepstake award were won by Henniker High School this year at Hopkinton Fair.

The equipment of the high school was improved by the purchase of a typewriter and mimeograph machine. This permits the publication of a mimeographed school paper. It also facilitates the preparation of units of work and various tests given by the teachers.

At the Central School, there is still need of a better stove for the preparation of school lunches. The oil stove now in use is dangerous and unsatisfactory. More dishes and spoons are needed for serving lunches in this school. There is also need of more electric lights for use of the pupils in the Central building. In each of the school rooms there is only one electric light and this is in the front of the room over the teacher's desk. All the school rooms have windows on three sides so that there is extensive cross lighting. These conditions no doubt account for some of the difficulty which some pupils have with their eyes.

SHORTAGE OF TEACHERS

We wish to direct the attention of the board and the parents of pupils in the district to the serious shortage of teachers. During the past two years, this has been becoming more acute particularly among elementary teachers. Now, it is greatly accentuated and is extended to high school teachers. The reasons for this are: (a) Large numbers of young men have enlisted in the army or navy. (b) Others, both men and women have gone and will go to work in essential industries where they receive much higher wages or salaries than they would in teaching. The latter will be followed by others, who

are now teaching, unless higher salaries are paid. Prices are going up, and the value of the dollar is coming down. The cost of living has increased eleven percent since August 1939. Food prices are up nineteen percent. A dollar at the grocers is worth only about eighty cents.

Twelve million factory workers have already received an increase of 30 % in average weekly earnings. Farm products have gone up 45 %. Teacher's salaries, however, remain the same. Prices by the end of the year, 1942, will in all probability be 25 % higher than in August, 1939. Thus the teachers salary of \$1,000.00 will be cut to \$750.00. To have purchasing value equal to that of 1939, it should be advanced to \$1,250.00. This will of course mean an increased budget and higher taxation, but to meet this, incomes of the people in general are rising faster than the cost of living. Property is worth more.

At the coming district meeting, it will be necessary for the people of the community to choose whether they will jeopardize the welfare of their children through the loss of their best teachers, or whether they will increase the salaries of these teachers enough to hold them in the district. Already, several of the teachers in Supervisory Union No. 26 have received very attractive offers to teach in neighboring states or in the larger towns and cities of New Hampshire.

The schools are our long-time line of defense. It is the responsibility of the people to strengthen rather than weaken this line.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.
