Highway Supervisors updates:

At the next Selectmen's meeting Leo will be presenting bid requests for crack seal, chip seal, curbing, and paving. This year he is planning on Elm Street, Bennett Street, Depot Hill Road, Circle Street, and ideally a portion of Old Hillsboro Road. He hopes the Selectmen will approve his bid recommendations.

Earlier today Leo marked out the water lines on Circle Street and Depot Hill Road with Norm Bumford, Superintendent of the Water Department. The drainage issues are complicated for Circle Street and Depot Hill; Leo explained to Leon Parker and Bill Marko about the complications regarding the underground utilities in the area and their impact on the drainage design.

The truck that was damaged from the last ice storm is up and running but waiting on a new hood and door per insurance recommendations.

The truck that was approved at Town Meeting has been ordered and should be available this coming October or November.

The crew has been doing some tree removal and cleared dead ones from Flanders Road and a few on Depot Hill Road that were too close the road, with the land owner's permission. Leo
