Trustees of the Trust Fund Meeting

Meeting started at 6:30pm.

In Attendance, Lori Marko, Susan Adams, Scott Osgood, Dan Butler

During the meeting, Susan Adams explained what her goal is. Susan explained the river bank erosion problem and it's involvement with the rope swing area and how it used to have a fence. There is a concern that leaving the park as it is will lead to safety issues with people falling into the river.

Lori explained that Susan would have to submit a request in writing with a specific scope to her plan as well as the specifics of how much the plan would cost and submit that plan to the Board of Selectman before it could be approved by the Trustees of the Trust Fund.

Susan agrees to write up a plan that includes her best estimates for costs of the project.

Meeting concluded just before 7pm.
